Termite Proof

Durability

Secure by
Nature

A **Manjari window** is a traditional-style steel window featuring glass panels and louvered shutters. It combines the strength and durability of steel with a classic, elegant design.

Corner Window

Crafted Beauty

Friction stays provide smooth, controlled opening and closing, allowing the window to stay securely at the desired angle without traditional pin hinges. They offer better stability, easy operation, and a clean, modern finish.

Ideal for **bedrooms, sit-outs, living rooms,** and other **residential spaces.**

Sliding Window

Our **sliding windows** combine strength, durability, and modern design. Built with a steel frame and smooth sliding operation, they provide excellent ventilation and natural light while making efficient use of space.

Strong. Stylish. Secure.
